

2004 Japan Rally Photos and Report

Hello Fellow ICOA Members

I am pleased to tell you that in the birth country of CBX, we had CBX meeting on July 4th, 2004. Over 50 CBXes (Moto Martin there too!) were present.

Part of our ride took us to "Karuizawa" at the foot of Mt. Asama where Honda started race activity in 60'S. It's 100 miles northwest from Tokyo, surrounded by good scenery and winding road. It was fine day. From there we went another 250 miles to north of Yamagata where we had reserved restaurant to have lunch.

In the parking lot there and looking up at Mt. Asama, Motorbike Magazine took photos for their CBX article which I

"This Is CBXer Heaven"

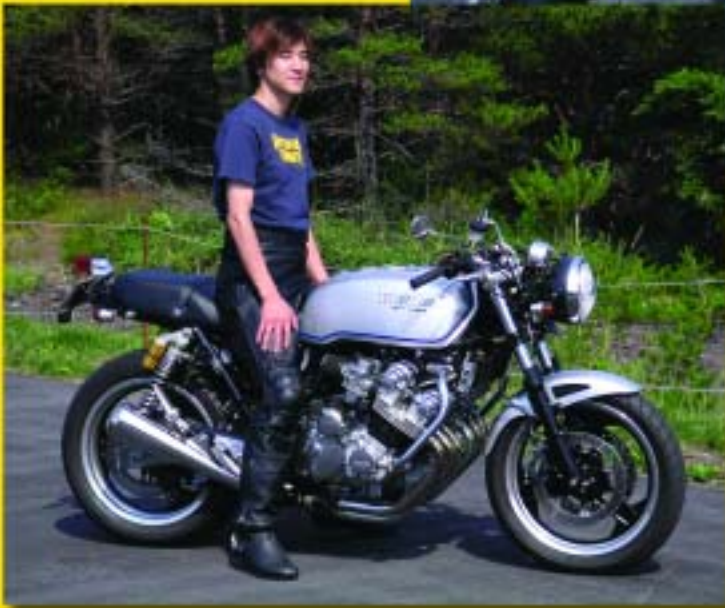

Kazu and the Vanson jacket he won at Marlinton

sent along to Mike Barone who will bring them to the ICOA Rallies for you to review.

We try to have monthly meetings in Tokyo and sometimes we go to the Motegi Honda museum where if we are lucky a RC177 or some other Jewel racecars and motorbikes be tested on the track.

Our activity is getting better than ever and I appreciate all the friendship with you at the ICOA Rallies I have attended and hope to see everyone again soon.

KAZU #4717
