CBX OIL FILTER ELEMENT

OIL FILTER ELEMENTS FOR OTHER HONDA MODELS ARE NOT INTERCHANGEABLE WITH THE CBX OIL FILTER ELEMENT.

Although the CBX oil filter element is the same size as other Honda oil filter elements, it is designed to accommodate a much greater oil flow rate and higher oil temperatures.

CAUTION

Oil filter elements manufactured to specifications for the CB750 and other Honda models must *never* be used in the CBX. Severe engine damage may result if a CBX is operated with an oil filter element which was not manufactured to CBX specifications.
